Hi All,

I'm now closing this thread. I really appreciate your work and wanted again to let you know I'm very glad to have experienced your influence.

I've received individual responses and had the chance to meet Mr. Dennett at DENT, where he politely validated some of my writing projects, upon telling him some more.

If you have any further interest you can get updates from my book and journal at mattanaw.org. Again the book I shared was here:

The new edition of this book will be in print soon.

Here I'm closing the loop. Feel free to reach out anytime.

Cheers,

Matt

Hi Daniel,

Here is the PDF version too. The next will be print-ready and in book format, but at the moment my system is not prepared for final proofing.

I can send you a print version on the next edit.

This is for your reading convenience, providing another option.

Cheers,
